

Cybersecurity - Multi Factor Authentication(MFA)

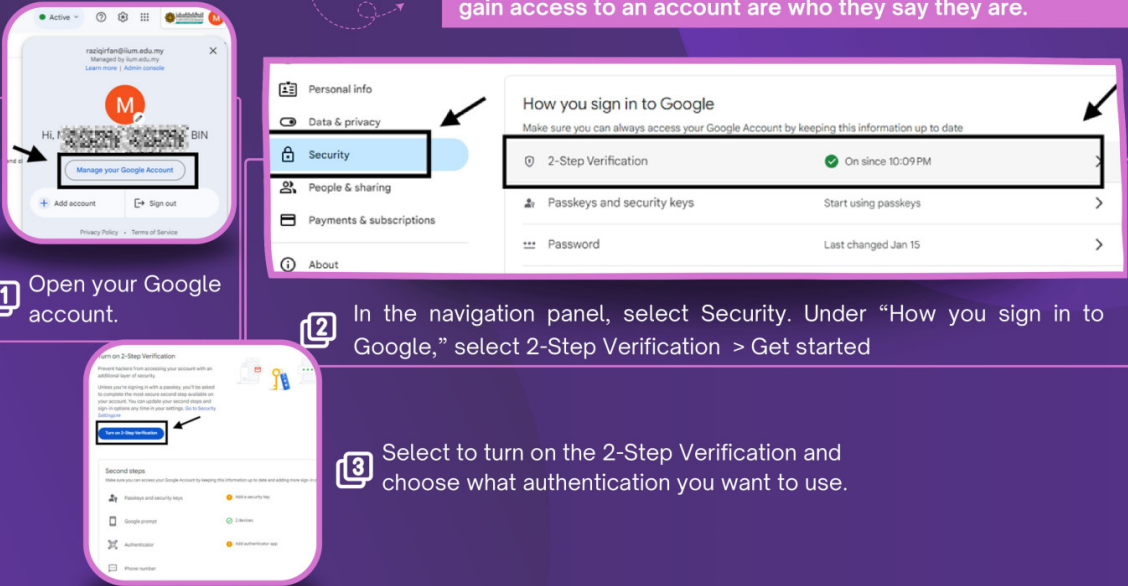

MULTI-FACTOR AUTHENTICATION (MFA)

WHAT IS MFA?

MFA is an extra layer of security used to ensure that people trying to gain access to an account are who they say they are.

- 1 Open your Google account.
- 2 In the navigation panel, select Security. Under “How you sign in to Google,” select 2-Step Verification > Get started
- 3 Select to turn on the 2-Step Verification and choose what authentication you want to use.
