

Manage Microsoft Onedrive Guidelines

1. If you don't have OneDrive installed, download the latest version.
2. Select the **Start** button, search for **OneDrive**, and then open it.
3. When OneDrive Setup starts, enter your Microsoft account, and then select **Sign in**.
- 4.

Image not found or type unknown

Note

If you already had an account signed in to OneDrive and you want to add another account, select the OneDrive cloud icon in the Windows taskbar notification area, select **Help & Settings**. In **Settings**, select **Account**, select **Add an account**, and then sign in.

Important

If you're using the OneDrive Mac Store app, uninstall it before installing the latest build of the sync app.
