

How to Enable 2SV for IIUM Email (Google Workspace)

1. What is 2-Step Verification (2SV)?

2SV adds an extra layer of security to your IIUM account (email, iMa'luum, i-Ta'leem, etc.). After entering your password, you'll need a **second verification method** (e.g., SMS code or authenticator app).

2. How to Enable 2SV for IIUM Email (Google Workspace)

Step 1: Log in to Your IIUM Google Account

1. Go to myaccount.google.com.
2. Sign in with your **IIUM email** (e.g., `username@student.iium.edu.my` or `staff@iium.edu.my`).

Step 2: Enable 2-Step Verification

1. Click **Security** → **2-Step Verification** → **Get Started**.
2. Re-enter your password if prompted.
3. Choose a **second verification method**:
 - **SMS (Text Message)** – Receive a code on your phone.
 - **Google Authenticator App** – Recommended for better security.
 - **Backup Codes** – Save these in case you lose access.
4. Follow the setup prompts and confirm.

Step 3: Complete Setup

- Test the verification method (e.g., enter the SMS code).
 - Click **Turn On** to activate 2SV.
